

Découper les morceaux selon la ligne noire. Plier toutes les languettes pour pouvoir les coller plus facilement. Plier l'anse A à 90°. Fermer le corps de la tasse en collant la languette B sur le côté C. Faire attention à ne pas coller l'anse, elle doit dépasser. Coller l'autre côté de l'anse (D) sur A. Mettre de la colle sur toutes les petites languettes E, et coller le fond F sous la tasse. Finalement plier et insérer le double fond G. Cette étape n'est pas obligatoire, mais c'est plus joli.

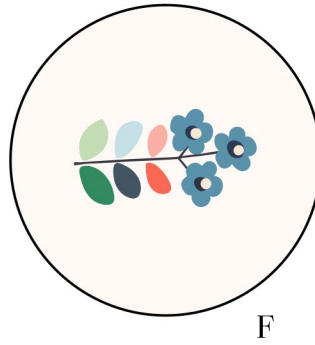

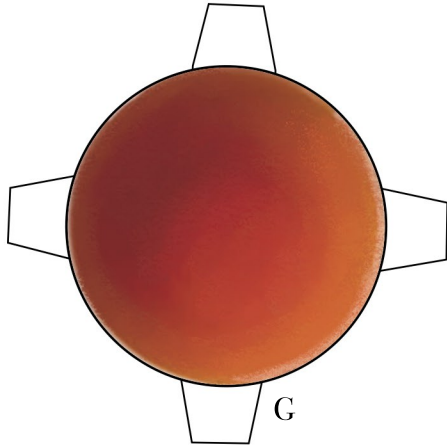

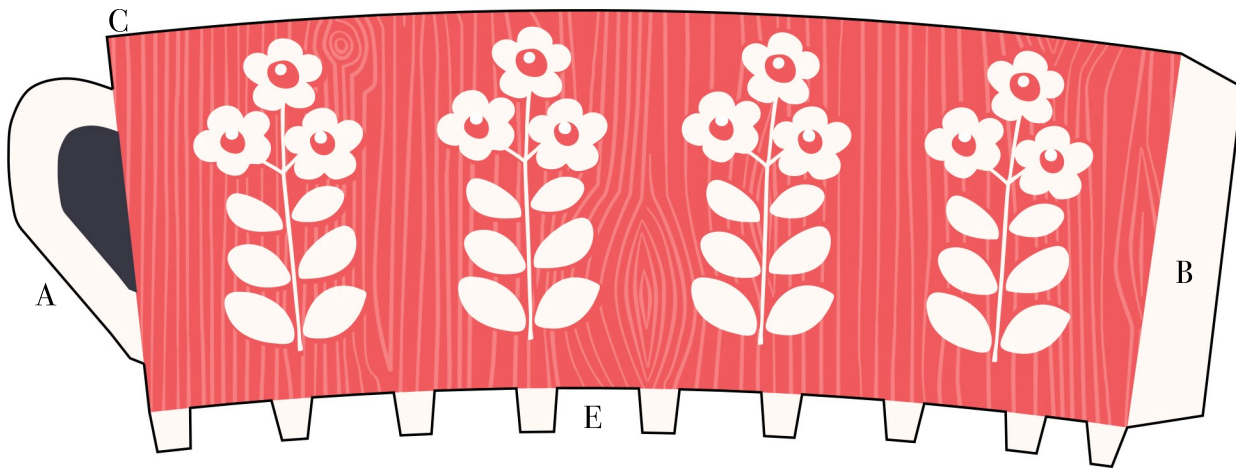

La dinette de Delphine

Cut the pieces along the black lines. Pre-fold all the tabs. Fold handle A at 90°. Close the mug body, gluing B on the C side. Don't glue the handle. Glue the other side (D) on handle A. Put some glue on all the E tabs. Glue the bottom (F) on the E tabs.. Finally fold and insert G. The G false bottom isn't really necessary but it's fun.

Insert a piece of floss between A&D when you glue them together to create a sweet ornament.
